

Project Based Learning

Project Based Learning (PBL) is a teaching approach that makes learning come alive for students.

PBL allows students to develop important 21st Century skills:

- Critical Thinking
- Problem Solving
- Collaboration
- Communication
- Creativity
- Innovation

Barnstable Community Innovation School's focus on Project Based Learning prepares today's students to succeed in tomorrow's world.

Enrollment Information

Children from all seven villages in Barnstable are welcome to enroll.

**Pre-Register online at
www.Barnstable.k12.ma.us**

There is a pre-registration deadline of **March 27, 2020**. Should more students pre-register than we have room for, we will hold a public lottery on March 30.

PLEASE NOTE: Siblings of current BCIS students will have guaranteed placement at our school if their pre-registration is completed by March 27.

If you would like to transfer your student from another Barnstable elementary school, please contact the Innovation School at innovationschool@mybps.us

If space allows, we will enroll students from school districts other than Barnstable. Parents will need to complete the online District School Choice form. A second public lottery will then be held on May 1, 2020.

*If we teach today's students
like we taught yesterday's,
we rob them of tomorrow.*

Why choose Barnstable Community Innovation School?

We believe that each child is an individual who requires a unique level of challenge or support to reach his/her full potential.

We strive to create strong partnerships with families and our community by encouraging volunteerism and community service activities.

Our students work with volunteers to plant and harvest our community garden.

We hold enrichment clusters for all students every winter.

Third grade students are leaders in our school and models of responsibility and respect.

The mission of Barnstable Community Innovation School is to provide a safe and nurturing learning community that will engage, educate, and challenge a diverse population through Project Based Learning. We support each child's unique intellectual and social development, strive for academic excellence, and cultivate parent and community partnerships.
