

## Project Based Learning

Project Based Learning (PBL) is a teaching approach that makes learning come alive for students.

PBL allows students to develop important 21<sup>st</sup> Century skills:

- Critical Thinking
- Problem Solving
- Collaboration
- Communication
- Creativity
- Innovation

Barnstable Community Innovation School's focus on Project Based Learning prepares today's students to succeed in tomorrow's world.

## Why choose Barnstable Community Innovation School?

We believe that each child is an individual who requires a unique level of challenge or support to reach his/her full potential.

We strive to create strong partnerships with families and our community by encouraging volunteerism and community service activities.

Our students work with volunteers to plant and harvest our community garden.

We hold enrichment clusters for all students every winter.

Third grade students are leaders in our school and models of responsibility and respect.

The mission of Barnstable Community Innovation School is to provide a safe and nurturing learning community that will engage, educate, and challenge a diverse population through Project Based Learning. We support each child's unique intellectual and social development, strive for academic excellence, and cultivate parent and community partnerships.

We are BCIS OWLS!  
Outstanding Wonderful Learners!
